

Double Flip and Put Together

Purpose to build understanding of addition using result unknown thinking

Materials PreK-2 Structure Cards
Giant Counters_
The Learning Carpet

Directions

Choose visual tool cards 0-5. Mix the cards up and split them into two piles. Put both piles face down and put Giant Counters red side up above one pile and the blue side up above the second pile. Flip over a card from the first pile and find the quantity. Make that quantity with the red counters. Flip over a card from the second pile and find the quantity. Make that quantity with the blue counters. Make an estimate. **Tell your thinking: I see 4 red counters and 3 blue counters...1, 2, 3, 4, 5, 6, 7...There are 7 counters in all.** Clear and repeat until all cards have been used.

More Ways to Play

Reduce the range of number to 0-3 of each card pile to add support.

Use *Geo-Data Cards* to change the play.

Increase the range of number to 6-10 to add challenge.

Use numeral cards to add challenge.
