

Flip and Count To

Purpose to build the counting skill of count to or producing a specific number

Materials PreK-2 Structure Cards
Counters or cubes
Plate or bowl

Directions

Put a pile of counters in front of each child. Choose one set of visual cards 4-9. Mix them up and put them face down. Flip over a card and find the quantity. Count out the exact number of counters from the pile to the plate. **Tell your thinking: I see 4 popsicle sticks. I will put 4 on the plate. 1, 2, 3, 4.** Clear the plate and repeat.

More Ways to Play

Reduce the range of number to 0-4 to add support.

Use a number cube labelled 4-9 instead of cards to change the play.

Increase the range of number to 10-20 to add challenge.

Use the numeral cards instead of the visual cards to add challenge.

Use *Place Value Cards* or *Number Cards* to work with two-digit numbers using manipulatives grouped in tens and ones to add challenge.

One, two, three, four.
